👤 Profile

Dynamic and detail-oriented Front-end developer with about 2 years of experience in building, optimizing, and maintaining Angular applications. Adept at collaborating with UI/UX teams to deliver responsive, intuitive user interfaces. Skilled in writing clean, maintainable, and modular code using TypeScript and RxJS. Proficient in integrating RESTful APIs and enhancing application performance through lazy loading, caching, and code splitting. Expertise in debugging using browser developer tools and logging frameworks. Actively involved in code reviews, sprint planning, and agile ceremonies within cross-functional teams. Passionate about continuous learning, keeping up with the latest Angular releases, tools, and best practices to drive team knowledge sharing.
